

Job Title: Accounting Consultant

Reports to: VP, Services

Summary:

We are seeking talented individuals to work as part of our Services team, performing software implementations and value-added Services to our growing client-base.

The Accounting Consultant role establishes and reviews our clients' accounting procedures and records in accordance with approved accounting practices, company policy and gaming regulations. This role will work closely with CFO's, Controllers, and Managers to design new accounting procedures and subledger for their business. During a software install, the Accounting Consultant role assists our clients' Revenue Audit team with daily revenue reconciliations, financial accounting, financial statement review, and month-end close process.

Essential Duties and Responsibilities:

- Work alongside our clients' Revenue Audit Department during software installations to correctly configure our software to their unique needs.
- Enable our clients' utilization of the software to perform and improve cage vault operations, count room procedures, payroll and revenue audit departments' daily tasks.
- Configure our software to correctly model the clients' chart of accounts.
- Design necessary journal entries at the time of system cut-over for system migration.
- Develops and enables department policies and procedures in accordance with gaming regulations and internal controls.
- Provide Support services to our clients in a post-install time period.
- Demonstrates and provides outstanding customer and employee relations at all times.

Further Expectations of Role:

- Disciplined in approach to work towards product completion and timelines.
- Ability and willingness to work independently.
- Ability to effectively formulate and communicate ideas.
- Must have an analytical thought process to see the design needed for software configuration to match the clients' needs.
- Ability and willingness to work extended hours on a sporadic basis (during certain days on a client installation) as required.
- Ability and willingness to work on multiple assignments/projects in a fast-paced environment and meet deadlines.

Qualifications:

- Bachelor's Degree in accounting or Finance
- Audit or Accounting experience is a plus, but not required.
- Excellent written and oral communication skills, technical writing skills
- Ability to create read and understand spreadsheets.
- Ability to work as part of a project team structure
- Ability to work on-site at client locations throughout North America
- Travel Expectations: ~ 50%
- Ability to pass stringent background investigations required
- Clean driving record required
